

# ENGLISH SECTION CONTENTS

No	Title	Pages
1.	<p style="text-align: center;"><b>MATHEMATICAL DRIVING MODEL OF THREE PHASE INDUCTION MOTORS IN STATIONARY COORDINATE FRAME</b></p> <p style="text-align: center;"><b>Ahmed Ibrahim jaber<sup>1</sup>, Husham Idan Hussein<sup>2</sup>,</b>  <sup>1,2</sup> Assistant lecturer, Collage of Engineering, Elect. Power &amp; Machines department, University of Diyala</p>	255-265
2.	<p style="text-align: center;"><b>IMPROVEMENT OF POWER AND VOLTAGE QUALITY IN POWER SYSTEM DISTRIBUTION USING FACTS (SVC &amp; DSTATCOM)</b></p> <p style="text-align: center;"><b>Ali Najim Abdullah, Mayyadah Sahib Ibrahim</b>  Assistant lecturer, College of Engineering, Elect. Power &amp; Machines Eng. Department, University of Diyala</p>	266-276
3.	<p style="text-align: center;"><b>OFF-GRID ELECTRICITY GENERATION WITH HYBRID RENEWABLE ENERGY TECHNOLOGIES IN IRAQ: AN APPLICATION OF HOMER</b></p> <p style="text-align: center;"><b>AMMAR ISSA ISMAEL</b>  Assistant lecturer, College of Engineering, University of Diyala</p>	277-286
4.	<p style="text-align: center;"><b>TRANSIENT ANALYSIS OF THREE PHASE INDUCTION MACHINES USING THE D,Q TWO-AXIS THEORY AT TWO DIFFERENT REFERENCE FRAME SPEEDS (STATIONARY AND SYNCHRONOUS)</b></p> <p style="text-align: center;"><b>Assama Sahib Jafar</b>  Assistant Lecturer, Department of Electrical Power and Machines College of Engineering, University of Diyala</p>	287-296
5.	<p style="text-align: center;"><b>AUTOMATIC GENERATION CONTROL IN MULTI AREA INTERCONNECTED POWER SYSTEM USING PID CONTROLLER BASED ON GA AND PSO</b></p> <p style="text-align: center;"><b>Ghassan Abdullah Salman</b>  Assistant lecturer, Electrical Power and Machines Engineering, Collage of Engineering / University of Diyala</p>	297-310
6.	<p style="text-align: center;"><b>PATTERN RECOGNITION OF DEFECTIVE BONES X-RAY USING ARTIFICIAL NEURAL NETWORK</b></p> <p style="text-align: center;"><b>Hanan Badeea Ahmed</b>  Assistant lecturer, College of Engineering, University of Diyala</p>	311-321
7.	<p style="text-align: center;"><b>OPTIMAL ECONOMIC DISPATCH BASED ON ARTIFITIAL BEE COLONY TECHNIQUE FOR IRAQI NATIONAL GRID</b></p> <p style="text-align: center;"><b>Hanan Mikhael Dawood <sup>1</sup>, Younis M. Nsaif <sup>2</sup></b>  <sup>1</sup>Lecturer, <sup>2</sup> assistant lecturer  College of Engineering-University of Baghdad</p>	322-330

8.	<p align="center"><b>MODELLING AND CONTROL OF ARTERIAL OXYGEN SATURATION IN NEONATAL INFANTS</b></p> <p align="center"><b>Lafta Ismaeel Jumaa</b> Lecturer, Electronics Engineering Department /College of Engineering/ Diyala University</p>	331-342
9.	<p align="center"><b>SHORT CIRCUIT ANALYSIS FOR POWER SYSTEM NETWORKS</b></p> <p align="center"><b>AHMED MAJEED GHADBAN<sup>1</sup>, Mohamed Waleed Abdulwahhab<sup>2</sup></b> <sup>1,2</sup> Assistant lecturer, College of Engineering, Electrical Power &amp; Machines Department</p>	343-354
10.	<p align="center"><b>SPEED CONTROL OF (SEDM) ADOPTING CHOPPER CONVERTER AND PI CONTROLLER</b></p> <p align="center"><b>Mohammed H. Ali</b> Department of power and electrical machine / college of engineering / Diyala University</p>	355-364
11.	<p align="center"><b>COUPLING AND DECOUPLING SECONDARY D-Q CURRENTS BASED BRUSHLESS DOUBLY-FED RELUCTANCE MACHINE</b></p> <p align="center">Mohammed Saadi Hassan Lecturer, College of Engineering, University of Diyala</p>	365-375
12.	<p align="center"><b>OPTIMAL NETWORK RECONFIGURATION OF DISTRIBUTION SYSTEMS FOR IMPROVING THE PERFORMANCE IN TERM OF POWER QUALITY USING BAT ALGORITHM</b></p> <p align="center"><b>Nesrallah Salman</b> Member of IEEE &amp; AASCIT, Department of Electrical Power &amp; Machines Engineering, College of Engineering, University of Diyala, Ba'qubah, Iraq</p>	376-385
13.	<p align="center"><b>NEW SYMMETRICAL MULTILEVEL INVERTER WITH REDUCTION OF SWITCHES</b></p> <p align="center"><b>Rokan Ali Ahmed</b> Lecturer, College of Engineering, University of Diyala</p>	386-393
14.	<p align="center"><b>POLARIZATION PROPERTIES OF VERTICAL-CAVITY SURFACE-EMITTING LASERS SUBJECT TO VARIABLE OPTICAL FEEDBACK POLARIZATION ANGLE</b></p> <p align="center"><b>Salam Nazhan, Z. Ghassemlooy and K. Busawon</b> Optical Communications Research Group, NCRLab. Faculty of Engineering and Environment, North Umbria University, Newcastle upon Tyne, UK</p>	394-400
15.	<p align="center">تصميم وتنفيذ منظومة سيطرة وحماية فائقة الدقة للمكانن الانتاجية التقليدية والمعاصرة</p> <p align="center">م.م. اياد قيس عبد الكريم<sup>1</sup> ، م. أقدم زينة طارق عبد الكريم<sup>2</sup> ، م. فني ناصر إسماعيل حديد<sup>2</sup> جامعة ديالى / كلية الهندسة/<sup>1</sup>وزارة التعليم العالي والبحث العلمي <sup>2</sup>وزارة الصناعة والمعادن/ شركة ديالى العامة للصناعات الكهربائية</p>	416 - 401
16.	<p align="center">تقليل خسائر اللاحمل للمحولات الكهربائية بزيادة عدد لفات ملفي الإدخال والإخراج</p> <p align="center">نريمان خالد هاشم<sup>1</sup>رياض نومان مظلوم<sup>2</sup> ، <sup>1</sup>رئيس مهندسين ،<sup>2</sup>مهندس <sup>1,2</sup> شركة ديالى للصناعات الكهربائية العامة . العراق ، ديالى</p>	429 - 417
